

Programme description	Level 2 Biology has a large number of credits (14 internal, 12 external). Students should aim to complete around 18 of these credits with at least one external. With the large scope available in these standards the course content will be tailored to suit the students needs.
Content	The Level 2 Biology course covers a wide range of topics. Microbiology, genetics, evolution and ecology can all be studied.
Prerequisites	Year 11 Science is helpful.
Required	Students will need a SciPad workbook and they will need to be able to access Google Classroom.
Assessment	Students will focus on completing the internals by the end of Term 2. Term 3 and 4 will focus on the external standards.
Contact	Sara Field, Ruapehu College sara@volcanics.school.nz Volcanics Cluster

Standards	Title	Type	Credit value
<i>Students will choose from the following standards</i>			
AS91153 v2	Carry out a practical investigation in a biology context, with supervision	I	4
AS91154 v2	Analyse the biological validity of information presented to the public	I	3
AS91155 v2	Demonstrate understanding of adaptation of plants or animals to their way of life.	I	3
AS91156 v2	Demonstrate understanding of life processes at the cellular level.	E	4
AS91157 v2	Demonstrate understanding of genetic variation and change.	E	4
AS91158 v2	Investigate a pattern in an ecological community, with supervision	I	4
AS91159 v2	Demonstrate understanding of gene expression	E	4

I = Internally Assessed | E = Externally Assessed
